ARCHIVED PRESENTATION

The ACS International Center presents

European Exchange Programs for International Research

Brought to you by EURAXESS, an initiative of the European Commission providing information and support to researchers wishing to pursue their research careers in Europe. The webinar will feature a presentation on the current European research landscape and international trends, as well as highlighted exchange programs.

July 31, 2013
2:00-3:00pm EDT

Dr. Csaba Janáky

Dr. Csaba Janáky is a Marie Curie Fellow at the University of Szeged Department of Physical Chemistry and Materials Science, where he works as an electrochemist, focusing on conducting polymer based hybrid materials.

He has completed a two-year fellowship at the University of Texas at Arlington Department of Chemistry & Biochemistry.

Csaba Janáky received his PhD in Chemistry as well as his Master's degree in Economics and Business Administration from the University of Szeged, Hungary.

Csaba is founding chairman of the European Young Chemists Network (EYCN), and currently also an Associate Member of the Committee on International Activities at the American Chemical Society.

About ACS

ACS Vision:

“Improving people’s lives through the transforming power of chemistry”

ACS Mission:

“Advance the broader chemistry enterprise and its practitioners for the benefit of Earth and its people.”

- 164,000+ members
 - 187 Local Sections
 - 32 Technical Divisions
- 87% of members have degrees in chemistry, 13% in other fields
- >60% of members in business & industry
- 25,000 members living outside the U.S.
- 2 locations
- 1,900+ employees

www.acs.org/ic

The **ACS International Center** is the first curated, searchable web database of its kind listing international exchange and collaboration opportunities in chemistry and the related sciences (grants, scholarships, internships, professional training, and more). At launch it contains information on over 350 programs in 15 geographies, sorted across 6 levels of professional experience.

March / April 2013

American Chemical Society Office of International Activities

In collaboration with the ACS International Activities Committee, the Office of International Activities (OIA) publishes ACS International News in electronic form on a bimonthly basis. It is designed to provide information on activities, networks, resources, products and services related to international aspects of chemical sciences, technology, engineering and innovation.

For more information on international meetings and conferences, visit www.acs.org/international to search and view opportunities in the U.S. and internationally. We encourage you to

INTERNATIONAL CURRENTS

245th ACS National Meeting & Exposition April 7-11, 2013 | New Orleans, Louisiana

Meet with more than 10,000 chemists, academics, students and other professionals gather to address one of the most important issues of our time: The relationship between chemistry and food in our society.

Join Us in New Orleans!

Are you planning to attend the ACS Spring National Meeting? If so, join us at the following events hosted by the International Activities Committee.

International Lounge

Saturday, 2:00 p.m. - 6:00 p.m. Sunday-Wednesday, 8:00 a.m. - 8:00 p.m.
La Nouvelle Orleans Lobby, Level 2, Morial Convention Center

IAC International Welcoming Reception

Sunday, April 7, 6:30 p.m. - 7:30 p.m.
Hilton Riverside Hotel, Versailles Ballroom

EURAXESS is an initiative brought forth by the European Commission. It is an online networking tool for researchers looking for a short or longer research stay in Europe. It provides information about research in Europe, European research policy, free job/fellowship publishing, opportunities for research funding, for international collaboration and for trans-national mobility.

RESEARCHERS IN MOTION

Viktoria Bodnarova

EURAXESS Links North America Regional Representative

Born in Slovakia, Viktoria Bodnarova received her Master's degree in International Relations and European studies from Prague's Metropolitan University in 2008. She then worked as project manager and a national coordinator for the Academy of Sciences of the Czech Republic of the Czech EURAXESS Network.

Since then, Viktoria's role has developed and she has participated as a speaker in several European and non-European events dealing with international mobility, career development of researchers and entry conditions for third country national researchers.

She has been working since 2013 as the EURAXESS Links Regional Representative for North America. She is in charge of the community of European and non-European researchers based in North America (approx. 3700 members) informing them mainly about funding and career opportunities the European Research Area has to offer and being their first contact point before their move to Europe.

Jean-Michel Sers

Jean-Michel Sers, EURAXESS Links
USA Country Representative based in Washington, D.C.

Special expertise: European Framework policy actions

Before EURAXESS, Sers was Directorate-General for Research and Innovation at the European Commission. He oversaw the conduct and development of research and innovation policy dialogue with ASEAN and India, including the preparation of policy and position papers.

Sers began his career with a degree in International and European law and business administration at the University of Montpellier, France. During 2000-2009, Sers served as project officer at the European Commission on issues of energy technology promotion and program coordination and implementation, and worked for ADEME and Cirad, two major French public research organizations, implementing energy and agriculture projects.

EURAXESS

In the context of EU research and innovation policy

Jean-Michel Sers
Regional Representative
EURAXESS Links North America

What is the EU policy in the field of research and innovation?

1. EU Treaty:

*=> The Union shall have the objective of strengthening its scientific and technological bases by achieving a **European research area**' (ERA).*

2. Europe 2020 strategy for smart, sustainable and inclusive growth (2010):

=> Propose the establishment of a ERA framework and supporting measures by 2014 aiming to remove obstacles to mobility and cross-border cooperation.

What is ERA?

- **A European “single market”** where researchers, technology and knowledge circulate freely across borders
- **Effective coordination and better integration** of research activities at national and European level
- **Research initiatives** implemented and funded at European level

=> EURAXESS contributes to the implementation of the ERA by removing barriers to the mobility of researchers and by stimulating international scientific cooperation

ERA instruments

Funding tools

- EU Framework Programmes for Research and Technological Development
 - European Research Council (ERC)
 - Public Private Partnerships (PPPs) & Joint Technology Initiatives (JTIs)
 - Risk Sharing Finance Facility (RSFF)
-

Soft tools

- ERA-NETs & Art.185 Initiatives
 - European Technology Platforms
 - Coordination of national policies (Open method of coordination & Ljubljana Process)
-

Community legislation impacting ERA

- Researchers' labour market related legislation
- Competition and internal market related legislation

The next EU research and innovation programme (2014-2020): **'HORIZON 2020'**

What's new:

- A single programme coupling research to innovation – from research to retail, all forms of innovation
- Focus on societal challenges facing EU society, e.g. health, clean energy and transport
- Simplified access, for all companies, universities, institutes in all EU countries and beyond
- More funding to provide researchers with training and career development opportunities (Marie-Curie Actions) and to help most creative individuals to carry out frontier research (ERC)

EURAXESS

Researchers in Motion initiative

Viktoria Bodnarova
Regional Representative
EURAXESS Links North America

What is EURAXESS?

Information about jobs & funding opportunities (more than 8.000/day)

Personalised assistance to researchers & their families through a network of > 500 people in **40** countries

Information about **rights and obligations** of researchers, their employers and funders, including entry conditions, and **pensions of researchers**

Networking tool for European & non-European researchers worldwide
