Council Committee on Project SEED

Mister President-Elect and members of Council:

[Advance Slide, Slide 2]

This summer, the Committee on Project SEED made lemonade out of lemons. At the end of March, the committee voted to cancel all in-person research for Project SEED students. We quickly switched gears and started planning a virtual Project SEED summer camp. The 4-week camp centered on three learning objectives, achieved though individual assignments, webinars, and small group discussions – as highlighted in the schedule on the right.

[Advance Slide, Slide 3]

We reviewed 521 total applications, ultimately finishing with 291 campers and 62 undergraduate or graduate student cabin leaders. Campers and student leaders that successfully completed the camp received $1,000 or $1,500, respectively. High-level demographic details of both campers and student leaders are illustrated in the pie charts on the slide.

[Advance Slide, Slide 4]

Putting this camp together in a few months was a significant undertaking that involved 45 speakers, the Project SEED committee, 23 ACS member volunteers, 60+ ACS staff members, and 11 ACS departments. Tasks included shipping Chromebooks, setting up a learning management system, developing curriculum, conducting background checks and paying the students.

[Advance Slide, Slide 5]

We held 584 Zoom meetings for a total of 667,000 minutes, generating 229 GB of recorded data. Notably, 98% were glad they participated in the program. Future summers will continue to incorporate weekly national webinars to expose students to careers and research in chemistry, college readiness, and other relevant topics, and will help students better engage with the Society for the long term.

[Advance Slide, Slide 6]

Project SEED owes a huge debt of gratitude to our many volunteers and donors. We encourage Councilors to please continue to donate to Project SEED when renewing ACS memberships and please reach out to your local section to support or start a SEED program in your area.

Mr. President-Elect, this concludes my report.

Don Warner, Chair
Report from the Committee on Project SEED

Virtual Summer Camp Edition
The Plan...

CAMP OBJECTIVE AREAS

Research basics and preparedness

Professional etiquette and college readiness

Exposure to chemistry-related career pathways

CAMP ACTIVITIES

- Live webinars
- Independent assignments (graded and feedback provided)
- Small-group discussions

The Team...

Volunteers and Governance

- **27** Webinar and Panel speakers
- **18** “UnConference” speakers
- **28** Committee members and associates
- **17** Virtual Summer Camp Task Force members
- **23** ACS volunteers that served as Camp Managers

ACS Staff

- **60+** ACS Staff members dedicating several hours to one month’s worth of time
- **11** Departments and Divisions (Education Division, Finance, Purchasing, Facilities, Service Center, IT, HR, Secretary’s Office, Membership Division, Office of Philanthropy, and Secretary’s office)
The Results...

- 584 Zoom meetings
- 667,000 minutes
- 24 National Webinars
- 2 Virtual Conference days
- 98% of Campers were satisfied with the camp (strongly agree or agree)
- 96% of Campers are interested in returning for 2021, depending on format

**OVERALL PROGRAM SATISFACTION (GLAD TO HAVE PARTICIPATED)**

- Strongly Agree: 81%
- Agree: 17%
- Strongly Disagree: 2%
- Neutral: 0%

**INTERESTED FOR 2021**

- NA, I will not be eligible: 15%
- No, I am not interested: 1%
- Yes, but only for a virtual program: 3%
The Investment...

Project SEED will continue both in-person and virtual components as feasible for 2021. To continue the progress, Project SEED needs your help.
