Welcome to the New Faculty Workshop

Welcome!

We are glad you're here!

Thank you for participating in this workshop-we know your time is limited, and we appreciate your energy and engagement.

My name is Ashley Donovan, and I'd like to provide a brief welcome and introduction to this event and the team behind it.

Thank you to our facilitators

This workshop would not be possible without the work of our facilitators. Thank you:

- Penny Beuning, Northeastern University
- Jahan Dawlaty, University of Southern California
- Milly Delgado, Florida International University
- Scott Donnelly, Arizona Western College
- Andrew Feig, Research Corporation for Science Advancement
- Amelia Fuller, Santa Clara University
- Jen Heemstra, Emory University
- Jill Millstone, University of Pittsburgh
- Matthew Mio, University of Detroit Mercy
- Kathryn Mouzakis, Loyola Marymount University
- Samuel Pazicni, University of Wisconsin-Madison
- Rory Waterman, University of Vermont

We will strive to make this a safe and inclusive environment

We encourage you to:

- Listen to learn
- Respectfully critique ideas, not individuals
- Experiment!

We invite you to:

- Challenge yourself
- Be kind to yourself
- Share how you identify yourself: we are a diverse group!

Workshop Logistics

- Workshop-related inquiries can be directed to nfw@acs.org
- We will use a combination of
 - Zoom for workshop sessions
 - Google Drive for resource sharing
 - Email for communications
 - Gather.Town for Thursday networking

Workshop Logistics (cont.)

- We know you may not be able to attend all sessions. Zoom sessions will be recorded so that participants will be able to access the discussions in an asynchronous manner.
- You will hear more about the ‘teachable tidbit’, but essentially you’ll be running a 7-10 minute activity in small groups on Monday. Many of the early sessions will help you ‘build up’ to constructing this activity.
- Please be sure to
 - Complete any pre-workshop surveys you received
 - Complete any pre-work (eg before Assessment session on Friday)

Meet your facilitators!

Thank you for joining us.

Now, let's meet our facilitators.
