

How Many Elements Do You Know?

from **Celebrating Chemistry**

Everything is made of substances we call elements. Take this quiz to see how many of the elements you know about. Draw a line connecting the question on the left to the correct element from the list on the right.

What element...

1. ... has the same name as a U.S. coin?
2. ... is a metal and is found in blood?
3. ... is an important mineral found in milk?
4. ... is needed in order for something to burn?
5. ... is used in glowing signs?
6. ... makes balloons float?
7. ... is found in toothpaste to help prevent cavities?
8. ... is used to make airplanes?
9. ... helps to purify water in swimming pools?
10. ... is used to make jewelry?

OXYGEN
HELIUM
PLATINUM
ALUMINUM
CALCIUM
NEON
CHLORINE
FLUORINE
IRON
NICKEL

Correct answers:

1. Nickel
2. Iron
3. Calcium
4. Oxygen
5. Neon
6. Helium
7. Fluorine
8. Aluminum
9. Chlorine
10. Platinum
