### ACS Bridge Program

in collaboration with IGEN

*Inclusive Graduate Education Network*

# INTERESTED IN GRAD SCHOOL ACS CAN HELP!

The **ACS Bridge Program** (ACS-BP) seeks to increase the number of students from underrepresented groups obtaining a PhD in the chemical sciences. In this program, ACS-BP students can take advantage of invaluable research experiences, advanced coursework, and mentoring and coaching to guide them through the graduate school application process.

Students who have not applied to graduate school, or who have applied but were not accepted will have access to

- A free common application that will highlight your personal and academic achievements to participating Bridge Departments
- Resources to help construct and revise competitive applications
- Professional connections to faculty, mentors, and career coaches
- Networking opportunities with other Bridge Students

Learn more and apply at

[www.acs.org/bridgeprogram](http://www.acs.org/bridgeprogram)

**Genentech**  
FOUNDATION

The ACS Bridge Project (Bridge Program and Bridge Travel Awards) has support from the National Science Foundation (NSF) through grant NSF-1834545, the Genentech Foundation, and the American Chemical Society. The ACS Bridge Project is a part of the NSF INCLUDES Alliance: Inclusive Graduate Education Network (IGEN). For more information, about IGEN, visit [IGENetwork.org](http://IGENetwork.org). Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation.

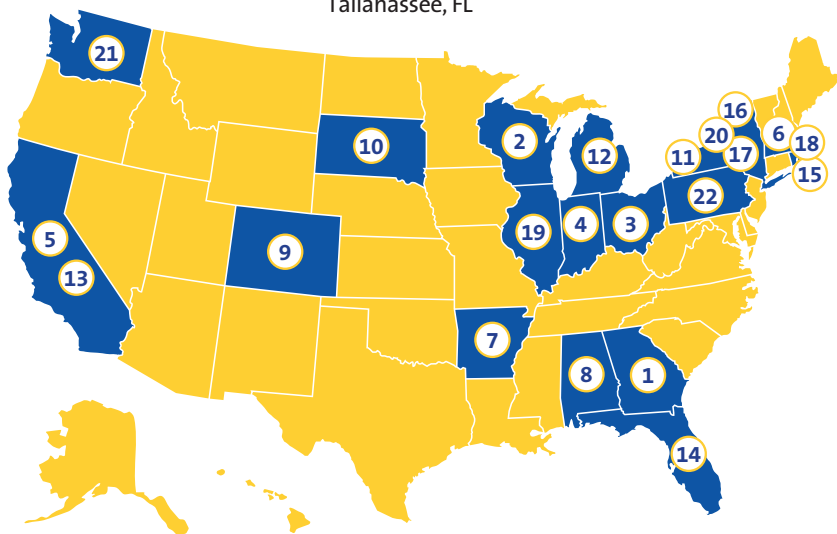

**ACS**  
Chemistry for Life®

ACS-BP has 23 participating departments in 21 locations. For additional department updates, visit our website at [www.acs.org/Bridge](http://www.acs.org/Bridge)
