GET INTO GRAD SCHOOL WITH ACS

The ACS Bridge Program (ACS-BP) seeks to increase the number of students from underrepresented minority groups obtaining a PhD in the chemical sciences. ACS-BP students enter programs that provide research experience, advanced coursework, mentoring, and coaching to prepare a graduate school application.

Students who have not applied to graduate school, or who have applied but were not accepted, may be offered:

• A free common application that will be shared with participating departments
• Resources to strengthen applications
• Connections to faculty and mentors
• Networking opportunities with other ACS-BP students

Learn more and apply at www.acs.org/bridgeprogram

The ACS Bridge Project (Bridge Program and Bridge Travel Awards) has support from the National Science Foundation (NSF) through grant NSF-1834545 and the American Chemical Society. The ACS Bridge Project is a part of the NSF INCLUDES Alliance: Inclusive Graduate Education Network (IGEN). For more information, about IGEN, visit IGENetwork.org. Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation.
The ACS-BP has participating departments from all over the country. More departments will be added, so check the most up-to-date list at [www.acs.org/bridgeprogram](http://www.acs.org/bridgeprogram).

* Chemistry
** Chemical Engineering
