Meet Heather Helicopter,
A very funny name.
But that’s what we call Heather—
Of helicopter fame.

Heather watches choppers fly—
Their blades spin ’round and ’round.
She likes to see them take off,
Then land back on the ground.

She wants to be a pilot,
Away up in the sky.
But ’til she gets her license,
She’ll make toy choppers fly!
HAPPY HELICOPTERS

What You’ll Need:
• 1 sheet of paper
• metric ruler
• blunt-tipped scissors
• paper clip

1. Trace helicopter pattern onto your own paper and carefully cut out.

2. Fold wing A toward you and wing B away. Add paper clip.

3. Hold your helicopter up high and drop. What happened?
