Uu is for upside-down.

Umberto likes to see things
When he is upside-down.
What a different view he gets
From others in his town!

Umberto’s getting tired
From standing on his head.
It’s messing up his hairdo.
What could he do instead?

We need to help Umberto
Stand straight up on the street,
So things will look flipped over
When he stands on his feet!
UPSIDE-DOWN TOWN

What You'll Need:
• white paper  • magnifying glass

1. Choose a room with a big window to do this activity. Turn out the lights.

2. Stand with your back to the window. Hold the sheet of paper in one hand and the magnifying glass in the other hand.

3. Holding the paper still, move the magnifying glass back and forth until an image appears on the paper. What do you see?

IMPORTANT—To see the image, look directly at the paper, not through the magnifying glass.

Don't let the sun shine directly through your magnifying glass!
