ACS Science and Human Rights

ACS EFFORTS:

- Build science and human rights awareness among its members and the global chemistry community through webinars, symposia, news articles, and other outreach efforts
- Implemented at the level of its Board of Directors; addressing issues where ACS is uniquely positioned and qualified to make a meaningful impact
- Directed toward human rights abridgement cases where the rights and welfare of professionally engaged chemists and related practitioners are threatened

THREATS TO ACADEMIC FREEDOM IN VENEZUELA

Police and Military Repression

In a non-democratic context and facing an humanitarian crisis, university professors and students in Venezuela have involved themselves in social protests, and as a consequence they have been murdered, illegally detained and/or subjected to military justice. Meanwhile governmental or paramilitary repressive forces have illegally burst into university campuses. In 2017, 23 university students died in off-campus protests, shot by governmental repressive forces and/or the paramilitary forces called 'colectivos'. 336 students were wrongfully arrested or detained. At least 39 students and professors were detained in 2017 and subjected to military justice.

Professors and students detained and brought to military justice	39

Rafael Avendaño was a Bolivarian University Student who was expelled on October 2016 when he changed a TV channel in the medical office where he was receiving his practical classes. The Human Rights Observatory of Los Andes University representing Rafael Avendaño appealed the decision and went to court with no results yet.

On February 2017, **Santiago Guevara**, a professor from the Carabobo University, was detained under the charge of treason. He was brought to military justice and jailed 10 months. He lost almost 30 kilos and his health suffered damaged.

New Non-Autonomous Institutionalities in Higher Education Policies

Since 2003 a number of 32 non-autonomous universities have been placed under the control of Sucre and Alma Mater Missions, created for indoctrination into the Bolivarian socialist credo. Many of them do not even have an adequate infrastructure, laboratories or libraries.

THREATENED

Whether from Syria or Iran, Turkey or Ethiopia: in 2016, researchers from many parts of the world had to leave their own countries. The Humboldt Foundation, together with the Federal Foreign Office, has launched the **Philipp Schwartz Initiative which finds places for endangered and persecuted researchers at German universities.**

54

About the Foundation

The Philipp Schwartz Initiative of the Alexander von Humboldt Foundation supported by the Federal Foreign Office

Description Programme documents FAQ Events Partners

The **Philipp Schwartz Initiative** provides universities and research institutions in Germany with the means to host threatened foreign researchers for a period of 24 months on a fully funded research fellowship. An extension is possible under a co-financing model.

The Initiative is funded by the Federal Foreign Office, with generous additional support from the Alfred Krupp von Bohlen and Halbach Foundation, the Andrew W. Mellon Foundation, the Fritz Thyssen Foundation, the Gerda Henkel Foundation, the Klaus Tschira Foundation, the Robert Bosch Foundation, the Stifterverband, and the Stiftung Mercator.

Applications for the fourth round of the Philipp Schwartz Initiative may be submitted until **15 May 2018**. The selection will take place by **15 September 2018**. Funding has been confirmed for at least 20 grants. Please find the application documents [here](#).

Who Is Eligible For A Philipp Schwartz Fellowship?

- ✓ Threatened researchers from any academic field and any country of origin who have completed their doctorate
- ✓ Do not reside or have not been resident outside their own country for more than 3 years
- ✓ Possess language skills required to conduct their research
- ✓ Possess academic qualifications (e.g. publications)
- ✓ Possess potential to be integrated into the (research-related) job market

www.humboldt-foundation.de/web/philipp-schwartz-initiative-en.html

What Are The Elements Of An Application?

- Concept for a sustainable support infrastructure for threatened researchers
- Application for a Philipp Schwartz fellowship including confirmation that the researcher is threatened
- Financing Plan
- **Application is done by host institution**

www.humboldt-foundation.de/web/philipp-schwartz-initiative-en.html

57

How Can A Threat To A Researcher Be Confirmed In The Context Of The PSI?

1. By way of a residence status in the context of an asylum-granting procedure that confirms a recognised threat

2. By way of a credible threat assessment issued by a third party, such as:

- www.scholarsatrisk.org
- www.scholarrescuefund.org

58

Some Tips When Choosing Germany

- **Larger German cities have higher life expenses** (Munich, Frankfurt, Hamburg, Berlin)
- **Be prepared to learn German A.S.A.P.**
- **Select carefully the most suitable host institution** (they will make the paper work for your application) **according to your field:**
 - Universities, including universities of applied sciences ("Fachhochschulen")
 - Max Planck Institutes, Helmholtz Institutes, Leibniz Institutes, Fraunhofer Institutes
 - Federal and State Research Institutes
 - Other research-performing institutions

FINDING PROGRAMMES & UNIVERSITIES

<https://www.study-in.de/en/plan-your-studies/find-programme-and-university>

59

Life in Germany

- **3,500 EUR/month for up to 2 years**
- **For a 4-member family:**
 - ~33% income for housing (Finding accommodation is sometimes difficult)
 - ~10% for health insurance
- **Public school is available and good**
- **An integration course is usually offered at the beginning of the stay.**

60

Audience Challenge Question

ANSWER THE QUESTION ON BLUE SCREEN IN ONE MOMENT

How attractive might the PSI Fellowship be for scholars at risk?

- Not attractive
- Slightly attractive
- As attractive as other programs
- Very attractive
- Undecided

Alexander von Humboldt
Stiftung/Foundation

61

My Fellowship Is Due, What Next?

- **Go back?**

Usually not an option

- **Stay?**

Legal status must be verified / renewed

- **Go somewhere else?**

This would usually depend on your international contacts / job chances abroad / visa issues
