BENEFITS OF MEMBERSHIP
Tell your Nominee with membership they will...

**Advance** their career with the Career Services, Career Fair and Pathways Workshops that will help them find the right career pathway. Only members can attend Career Fairs, Interviews and Résumé workshops held at ACS meetings.

**Connect** with colleagues from around the globe through our National Meetings, ACS Local Sections, Technical Divisions*, Student and International Chapters.

*New members can join 2 divisions free for the first year

**Discover** the length and breadth of what ACS Journals and weekly issues of C&EN can bring them — access to over one million articles, top ranking citations, and up-to-date developments in industry and academia.

**Start recruiting today!**
2019 is the International Year of the Periodic Table of the Elements

ACS is celebrating the 150th anniversary of the Periodic System as created by Dmitri Mendeleev with a special Member-Get-A-Member limited edition Periodic Table of the Elements blanket.

You have enjoyed the services and benefits of ACS. Why not share them? Encourage your colleagues — students to seasoned professionals — to join ACS through our Member-Get-A-Member Campaign.

Through the Member-Get-A-Member Campaign, you and your nominee benefit as ACS is able to expand upon the work it is doing on behalf of all chemical scientists. This includes securing funding for research, faster access to latest breakthroughs in science throughout the world, and more.

Read how to get your Periodic Table of the Elements Blanket by visiting www.acs.org/MGMPTEb

New Members recruited through the MGM Campaign will also receive a gift — ACS Family of Chemists decals.
