

Chemistry Enterprise Partnership

This Chemistry Enterprise Partnership (“Agreement”) is entered into on this **9th day of April, 2019**, by and between the **American Chemical Society (ACS)**, a federally-chartered non-profit headquartered at 1155 16th Street, N.W., Washington, D.C. 20036, and the **Society for Advancement of Chicanos/Hispanics and Native Americans in Science (SACNAS)** headquartered at 1121 Pacific Avenue, Santa Cruz, California, 95060.

ACS and SACNAS have a shared overarching objective to promote and achieve diversity in STEM. Preparing the workforce for the future ensures that the chemistry enterprise and other scientific disciplines benefit from the abundant talents and resources of underrepresented populations that helps drive innovation and discovery.

Toward that end, ACS and SACNAS enter into a three-year Agreement to work together to achieve the above objective through alignment with the 2030 United Nations Sustainable Development Goals (SDGs), particularly Goal 4/Quality Education; Goal 5/Gender Equality and Goal 10/Reduced Inequalities. Broad areas for cooperation, primarily at ACS or SACNAS meetings, or other to be defined venues, include:

- **Training:** in the areas of career and workforce development; effectively communicating science; public policy development and advocacy; research publication; diversity and inclusion and other identified areas of mutual agreement; and,
- **Collaborations:** by jointly developing symposia and workshops; engagement in public policy advocacy and outreach on common interests; marketing and promotion of each organization’s relevant events/activities; other identified activities of mutual agreement; and,
- **Scholarship:** through provision of travel grants for students to attend/participate in each organization’s meetings; promotion and access to each organizations programs that provide opportunity to underrepresented populations and other mutually agreed to means.

AGREED by the Parties through their authorized signatories:

For and on behalf of the Society for
Advancement of Chicanos/Hispanics and
Native Americans in Science (**SACNAS**)

For and on behalf of **The American Chemical
Society (ACS)**

John D. Winnett, Executive Director

Thomas Connelly, Executive Director & CEO
