ACS GCI Biochemical Technology Leadership Roundtable

**Become a member and
help shape the future of the bio-based sector!**

To find out more, contact ACS GCI Program Manager, Dr. Isamir Martinez at 202-317-0878 or I_Martinez@acs.org.

Accelerate Innovation

Enhance Knowledge and
Relationships

Support Commercialization

Address Global Sustainability
Challenges

Improve Competitiveness

Build Trust and Reputation

Join these leading companies and make a commitment today!

CALYSTA

WHITE DOG LABS

LanzaTech

With over 10 years' experience convening highly successful Roundtables to catalyze industrial green chemistry & engineering, the ACS GCI is pleased to offer this successful model to the bio-based sector.

The ACS Green Chemistry Institute®, a part of the American Chemical Society, is dedicated to catalyzing the implementation

of green chemistry and engineering throughout the global chemistry enterprise. In addition to convening industrial roundtables, ACS GCI holds an annual Green Chemistry & Engineering conference (gcande.org), and offers educational resources including grants, awards, webinars, and workshops—encouraging scientific innovations to solve environmental and human health issues facing our world today.

For more information contact ACS GCI Program Manager,
Dr. Isamir Martinez at 202-317-0878 or I_Martinez@acs.org.
