Now open for membership
ACS GCI Biochemical Technology Leadership Roundtable

Become a founding member and help shape the future of the bio-based sector!
To find out more, contact ACS GCI Program Manager, Ann Lee-Jeffs at 202 578 3898 or a_lee-jeffs@acs.org.

- Accelerate Innovation
- Support Commercialization
- Improve Competitiveness
- Enhance Knowledge and Relationships
- Address Global Sustainability Challenges
- Build Trust and Reputation

Join these leading companies and make a commitment today!
Companies joining by June 16th are recognized as founding members.

CALYSTA
INTREXON
LanzaTech
White Dog Labs

With over 10 years’ experience convening highly successful Roundtables to catalyze industrial green chemistry & engineering, the ACS GCI is pleased to offer this successful model to the bio-based sector.

The ACS Green Chemistry Institute®, a part of the American Chemical Society, is dedicated to catalyzing the implementation of green chemistry and engineering throughout the global chemistry enterprise. In addition to convening industrial roundtables, ACS GCI holds an annual Green Chemistry & Engineering conference (gcande.org), and offers educational resources including grants, awards, webinars, and workshops—encouraging scientific innovations to solve environmental and human health issues facing our world today.

For more information contact ACS GCI Program Manager, Ann Lee-Jeffs at 202 578 3898 or a_lee-jeffs@acs.org.
