**Information, insights, and advice for ACS industry members**

October 29, 2020

---

*Jennifer Holmgren, LanzaTech CEO, explains why she left a great career at UOP, how she leads her team to avoid the 'trap of forming predictions from a tightly focused position of expertise', and her desired legacy when she leaves LanzaTech.*

*Judy Giordan, who has held executive positions at International Flavors and Fragrances, PepsiCo, and Henkel – and now focuses on seed and early stage STEM aligned start-ups – explains how the pursuit of innovation differs in big companies vs. start-ups. Judy also explains what prompted her and others to create the Chemical Angel Network.*

*Jamie Schwarzbach, Brand Manager, Oncology at Natera, shares her story about how enrolling in a business minor while pursuing a graduate degree in chemistry led to some unexpected career opportunities. She, like many others who have contributed to ACS Industry Matters, sees benefits from integrating business courses into your undergraduate or graduate studies.*

*Finally, Rebekah Paul, formerly with a large coatings company, and currently with ACS supporting its Industry Member Programs, shares some observations from a recent ACS Webinar featuring Alexa Dembek, DuPont's Chief Technology & Sustainability Officer, John Banovetz, Senior VP, Innovation & Stewardship and CTO of 3M, and Peter Eckes, President, BASF Bioscience Research. If you are considering a career in industry, or are already employed in industry and looking for insights to help you advance, I encourage you to spend one hour with these three industry leaders and the host of the webinar, LaTrease Garrison, EVP, ACS Education Division.*

## MORE FROM ACS

### From ACS Webinars - Starting a Company: Where Do You Get Funding?

Join Jim Skinner of Terregena, Inc. and the ACS Division of Small Chemical Businesses, President-Elect H. N. Cheng and past ACS President Diane Grob Schmidt on [Thursday, November 5](#) to hear about the many sources of funding and their impact on ownership. Did you miss a webinar or want to view one again? ACS members have exclusive access to our expansive library of recordings. [Visit the webinar archives](#) to catch up on the latest recordings

### Recently Released: 2020 Heroes of Chemistry Videos

Many thanks to the [ACS Board Committee on Corporation Associates \(CA\)](#), which selects the recipients of the [prestigious Heroes of Chemistry award](#). Check out the videos for our 2020 winning companies: AST Products Inc., DuPont, and Janssen, and learn more about the innovations they successfully brought to market at [www.acs.org/heroes](http://www.acs.org/heroes). The nominations for the 2021 Heroes of Chemistry open on November 1.

### Nominate a Peer or Colleague for an ACS National Award by Nov. 1

Time is running out to nominate your peers for a 2022 ACS Award! With awards in many technical specialties, education, service & more, there is an award for everyone! Nominations close Nov. 1. [Browse awards open for nominations, and nominate today!](#)

### Virtual Office Hours

Career Consultants are available [Thursdays at 12:00 pm ET](#) to talk with ACS Members about resume writing, video interviewing, optimizing your LinkedIn profile and more. [Register now to reserve your spot.](#)

### Visit the Industry Matters Archive

Hundreds of articles from the best and brightest minds industrial chemistry has to offer are available at your fingertips. Browse the Industry Matters archive by issue date or feature to help you easily find what you're searching for. [Visit the archive today](#) to see more articles like the ones in this newsletter!
