INDUSTRY MATTERS

Information, insights, and advice for ACS industry members

December 17, 2020

William Provine, President and CEO, Delaware Innovation Space, has lots of interesting things to say. He predicts how DuPont will evolve over the next ten years, explains why those doing something new need to view events as 'learnings' vs. success/failure, lists the key non-technical skills for early career chemists, and what he is doing to help prepare tomorrow's socially responsible young leaders.

Bill Carroll's focus is on helping chemists who are exploring moving from the bench to something new. A key part of his advice: Use your inherent strength in the area of research to identify and evaluate potential opportunities.

Need to conduct an interview? Worried that you don't know how? Three ACS Career Consultants point the way.

Chemistry-related entrepreneurs, investors, tech transfer organizations, and large companies looking for a way to connect with one another have it: The ACS Innovation Hub LinkedIn Group. Cal Trepagnier, Program Specialist, ACS Industry Member Programs, explains the many ways you will benefit from joining the group, which already has 1,700 members.

Finally, the ACS Industry Newsletter team sends warm holiday wishes to our readers. Our hope is that the holidays are safe, healthy, and enjoyable for all. May 2021 bring us only good things. Our team will be celebrating, too; as a result, our next issue will publish on January 7. Until then.

MORE FROM ACS

Now Accepting Abstracts for ACS Spring 2021

Submit your abstracts for ACS Spring 2021! Visit the [ACS Meetings & Expositions](#) page to find a complete list of programming divisions and symposium as well as information on how to submit your oral and poster presentations. ACS Spring 2021 will be held virtually, April 5-16, 2021. The program will include 10 weekdays of live sessions, followed by two weeks of on-demand content, at the presenters' discretion.

The deadline to submit abstracts is January 19, 2021. Additional Information about abstracts, registration, and more can be found on the [FAQ page](#) of the website.

Call for I4C Scholar Applications

The American Chemical Society (ACS) Division of Business Development and Management (BMGT) is excited to offer the Investment Into Industrial Internships for Chemists (I4C) program, which is designed to provide supplementary support for underrepresented chemists and chemical engineers interested in pursuing careers in the leadership and management of the chemical enterprise. For more information, please visit <https://bmgt.org/mentoring-program/> or contact I4C@bmgt.org or Chair@bmgt.org

Nominations sought: Peter J. Dunn Award for Green Chemistry & Engineering Impact in the Pharmaceutical Industry

The Peter J. Dunn Award was established in 2016 by the ACS GCI Pharmaceutical Roundtable to recognize excellence in the research, development and execution of green chemistry that demonstrates compelling environmental, safety and efficiency improvements over current technologies in the pharmaceutical industry and its allied industrial partners. The 2021 award will be presented at the 25th Annual Green Chemistry & Engineering Conference – to be held virtually, June 14-18, 2021 – where the recipient will be invited to share his or her technology. The deadline for submitting

Bill Provine on DuPont's Next Ten Years • Bill Carroll's Blueprint for Transitioning to a New Role
recipient will be invited to share his or her technology. The deadline for submitting applications or nominations is 5 p.m. (EST), Thursday, December 31, 2020. [Click here](#) for more information.

2021 Heroes of Chemistry Award Nominations Open Now Through Feb. 1!

Nominations for the ACS Heroes of Chemistry Awards are now open through February 1, 2021! The Heroes of Chemistry Award is one of the highest honors the ACS gives to industrial chemists, recognizing teams whose work and research led to the development of successfully commercialized products benefitting humankind. Any private or publicly owned for-profit company may nominate a team of chemists or allied scientists who played a vital role in the research and development of a commercial product that has had an impact on the welfare and progress of humanity. Nominating companies may choose to include individuals from other companies, government or academic labs, incubators, or other organizations as members of the teams they nominate. Former employees are also eligible to be included in the nomination. Celebrate your company's hard work and success in innovation - [apply now!](#)

Enjoy Free Webinars from ACS

ACS members can enjoy [FREE live webinars](#) led by subject matter experts, featuring a wide range of topics. Check out our upcoming schedule of free live broadcasts, as well as our expansive ACS Webinars Archive. Visit the [webinar archives](#) to catch up on the latest recordings.

Virtual Office Hours

Career Consultants are available [Thursdays at 12:00 pm ET](#) to talk with ACS Members about resume writing, video interviewing, optimizing your LinkedIn profile and more. [Register now](#) to reserve your spot.
