September 23, 2021

Christina Bodurow, Vice-President, Global Regulatory Affairs, IQVIA and ACS Board member, explains how biopharma came to be so highly regulated and details some of the less-obvious reasons for the regulations.

3M has made a massive commitment on a variety of fronts to diversify STEM. The company's Chief Diversity Officer and Vice President, Ann Anaya, provides an overview of what 3M is doing, the motivation for its efforts, and what it hopes to achieve. The efforts are impressive and inspirational.

In this week's 5th Quarter, Robert Yokley, previously with CONCOCO, Ciba-Geigy, and other companies, explains how a vintage British sports car fits into his retirement plans, and why he places importance on having structured and unstructured time on his calendar. For those of you thinking about retirement, or perhaps in need of a retirement course-correction, you may be interested in a [free ACS retirement workshop](#), presented by [Bill Carroll](#), on October 27.

CHT is a company that produces and distributes high quality-grade chemicals, auxiliaries, and dyestuffs for the textile industry worldwide. Learn how their efforts illustrate how the Cradle to Cradle Certified material health assessment can be used to innovate products in collaboration with the value chain.

Jared Raszewski, Founder and CEO at DisSolves, shares the story about his ground-breaking packaging invention in the world of powdered-food products, and how it is both more convenient for customers, and more sustainable for the planet.

MORE FROM ACS

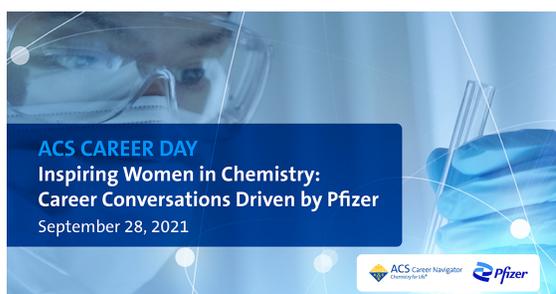

[Attend ACS Converge: A New Virtual Industry Event](#)

Join ACS on Tuesday, October 5 for ACS Converge, a new virtual event for scientists to engage in interdisciplinary discussions on innovations leading the chemical enterprise. Attend talks on real-world applications of research and leave inspired by the ways science can solve global problems. [Learn more and register for FREE today!](#)

ACS Career Day: Inspiring Women in Chemistry with Pfizer

Want to make chemistry more supportive for women? Join ACS and Pfizer on September 28 for a FREE half-day ACS Virtual Career Day for undergraduate and graduate students featuring keynote and panel discussions on career planning, breakthrough science, and advocating for a healthy work-life balance. [Learn more!](#)

ACS Virtual Office Hours

Special Themed Virtual Office Hour 10/7: How to Communicate as a Leader in Industry

Join ACS on Thursday, October 7th for a FREE virtual career guidance session where you will learn key strategies to communicate effectively as a leader in industry. A panel of experts will share how to communicate with empathy, through changing circumstances, and to disparate audiences. You will also have the chance to get personalized career advice and network in small groups lead by ACS Career Consultants. [Register for free today!](#)

Upcoming from ACS Webinars

TODAY: Thursday, 9/23: 3-D Printing Next-Gen Polymers

How will the efficient discovery of functional polymeric materials together with advanced

manufacturing catalyze next generation commercial products? During this free interactive broadcast, you will learn how fundamental structure-property-processing-performance relationships are implemented to predict the printability of next-gen polymers for emerging technologies where part geometry brings added performance. [Register for free!](#)

Did you miss a webinar or want to view one again? ACS members have exclusive access to our expansive library of recordings. Visit the [webinar archives](#) to catch up on the latest recordings.

Upcoming ACS International Events

Join us in discussions on scientific research and discoveries, career-focused learning and more with the ACS Science Talks LATAM series in Spanish!

ACS Science Talks

28 Sept | 2:00-3:00 PM US Eastern Time

Topic: Baterías recargables: del nacimiento y evolución de la tecnología de ión litio a la búsqueda de nuevas químicas

Speaker: Dra. M. Rosa Palacin

Department of Solid State Chemistry, Institut de Ciència de Materials de Barcelona, Spain

Associate Editor: Chemistry of Materials

American Chemical Society | 1155 Sixteenth Street, NW | Washington, DC 20036
