January 5, 2023

A belated Happy New Year to you!

We are kicking off 2023 with our first monthly issue of ACS Industry Matters. You can continue to expect our emails in your inbox featuring a mix of new content, articles worth reading again, quarterly themed editions, and more!

This issue includes a new One Minute Mentor by Judy Cohen, VP Manufacturing Operations at Braeburn. She tells us why leaders don't need to know it all to succeed and how diversity plays a key role.

Meet the CEO leading the charge for rare disease treatments, and learn how the ACS Scholars Program has been proven to prepare underrepresented students for a successful career in industry.

Explore below!

ONE MINUTE MENTOR

Judy Cohen, Braeburn's VP Manufacturing Operations, speaks to why leaders don't need to know it all.

MORE FROM ACS

Upcoming from ACS Webinars: Converting Pollutants into Products

Wastewater collection can be a win-win for the environment and businesses, because it contains several valuable elements that can be converted and purified into high-purity products like fertilizers, disinfectants, acids, and bases. What will it take to shift our perspective to valorize these pollutants as a source of feedstock chemicals to incentivize collection, enable electrification of manufacturing, and help achieve circular economies? [Register now](#) to learn how catalysis and separations can be integrated to produce high-purity chemicals from diverse, variable, and widespread wastewaters.

Time is Running out to Submit a Nomination for the 2023 Heroes of Chemistry

Innovation paired with commercial success is worth recognizing. Nominate your company or someone you know for the [2023 Heroes of Chemistry Award](#). This award is one of ACS's highest honors for industry, recognizing companies which have developed successfully commercialized products. The deadline to submit a nomination February 1!

Have a Question? Get Answers, While Expanding Your Professional Network!

ACS is excited to announce that all members of the ACS community now have access to the ACS Link networking platform. ACS Link provides you with a new way to connect virtually with individuals in the global ACS community who are around the corner, or around the world! This benefit is now included in your current benefits package. Have a question? [The ACS community might just have the answer.](#)

Nominate an Early-Career Chemist to C&EN's Talented 12

C&EN's Talented 12 program celebrates early-career chemists working in academia, industry, and government who are making a global impact. Being recognized can serve as a launching pad for the Talented 12 to gain recognition for their ideas, find funding and collaborators, and become the leaders of the future. [Submit your nomination](#) by January 17 for the Talented 12 class of 2023.
