This month four ACS Career Consultants share best practices for self-onboarding... a tough task to tackle if you’re not proactive from the start of a new role or project.

Mohammed Alaskar tells us why Aramco’s sustainability initiatives have taken the front seat in terms of priority projects, and Carlonda Reilly says to embrace the phrase “less is more”.

Learn more and explore below!

ACS BOSS TALK

Aramco’s Mohammed Alaskar speaks to the most significant sustainable issue confronting the oil and gas industry.

MORE FROM ACS

Join ACS and Dupont GOLD for a PhD Workshop for Industrial Careers!

Join ACS and DuPont GOLD (Growth Opportunities Leading in Diversity) on June 21 for a workshop exploring different industrial careers for ACS Bridge Fellows and underrepresented Ph.D. students and post-doctoral scholars in the chemical and engineering sciences. Applicants that meet the application criteria will be evaluated based on their personal statement and research summary. Selected participants will receive an interview with DuPont, and the top two participants additionally will be awarded cash prizes of $500. Learn more about this workshop, the requirements, and how to apply.

Online Live Professional Education Courses with ACS Institute

Gain new skills and enhance your expertise from the comfort of your own home! ACS Institute is offering 4 online live courses this month. Choose from Effective Technical Writing, Pharmacokinetics for Chemists in Drug Discovery and Development, Pharmacology-based Structure-Activity Relationships for Medicinal Chemists, and HPLC and UHPLC for Practicing Scientists 1: Fundamentals. Each class takes place in real-time allowing you to learn directly from our faculty of industry experts. Learn more and register today!

Have a Question? Get Answers, While Expanding Your Professional Network!

ACS is excited to announce that all members of the ACS community now have access to the ACS Link networking platform. ACS Link provides you with a new way to connect virtually with individuals in the global ACS community who are around the corner, or around the world! This benefit is now included in your current benefits package. Have a question? The ACS community might just have the answer.
