August 3, 2023

How should a resume be formatted later in life? Four ACS Career Consultants share tips on how to craft a powerful resume as an experienced professional. Matt Irwin of DuPont also shares three essential traits he believes a scientist must have to be successful.

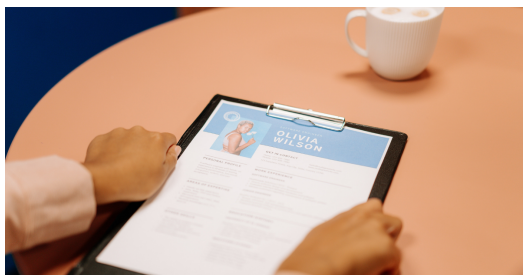

Wildcat Discovery Technologies' Chief Science Officer Dee Strand explains how a summer internship with Chevron sparked her career in industry and Lynn Hartshorn reveals how she fills the "void" she has experienced in retirement.

Explore more below!

Please share your experience with our newsletter in this 2-3 minute survey. In appreciation of your time, after you complete the survey, you will have the opportunity to enter a sweepstakes for one of three \$50 USD electronic Visa gift cards.*
