

ACS Member Benefits Overview

The American Chemical Society (ACS) supports chemists like you around the world in advancing the chemical sciences in all forms. ACS Members receive unparalleled access to scientific literature, research and publishing assistance, career resources, leadership opportunities, and more. No matter where you are in your journey, ACS supports you every step of the way! Learn more at www.acs.org/membership

Publish your research

■ Authoring Services

The highest quality publication support helps researchers in the chemical sciences and related fields prepare to submit their work to ACS Publications and other journals.

■ Open Access Journals

Supports open science initiatives and requirements by subjecting ACS open access articles to the same rigorous publishing standards as all ACS Publications content.

Present your research and network.

■ ACS Meetings

Attend and participate in a variety of ACS national and regional meetings, with discounted registration fees for ACS Members.

■ ACS Network

Online network where members can connect, collaborate, share information, and more.

Keep up with the science

- **Chemical & Engineering News (C&EN)**
News for professionals in the chemistry enterprise from academia, industry, and beyond.
- **ACS Publications**
Peer-reviewed journals and eBooks from top authors around the world.
- **Chemical Abstracts Service and SciFinder**
Online database service providing global access to published research, journal literature, patents, structures, and more.
- **Industry Programming**
- **Weekly ACS Webinars and Science Talks**
Expert discussions on a variety of general chemistry topics.

Connect locally and globally

- **Technical Divisions**
Connects you with ACS members in your field of expertise.
- **ACS Link**
AI platform that connects people with questions to people with answers.
- **U.S. Local Sections**
Connects you with members in your local community.
- **International Chemical Sciences Chapters**
Connects chemists and promotes the advancement of science around the world.

Advance your science, education and career

- **LinkedIn Learning**
Online business, technology, and creative courses provided in partnership with LinkedIn Learning.
- **ACS Institute**
Learning resources to help chemists enhance their technical and professional skills.
- **Undergraduate Student Resources**
- **Graduate and Postdoctoral Resources**
- **Awards, Grants, Fellowships**
Providing opportunity and recognition where it might not otherwise exist.

Engage with your community

- **Philanthropy**
- **Office of Diversity, Equity, Inclusion and Respect**
- **Outreach Activities**
- **Volunteer Opportunities**
